

Alexandre Carnero Pérez

AI Engineer — LLM Systems — Automation

Ferrol, Galicia, Spain
alexandrecarnerop@gmail.com
+34 698140778
in alexandre-carnero-perez

AI Engineer building LLM systems, multi-agent workflows, and automation products. Experience integrating APIs and scalable backends, complemented by enterprise data pipelines and AI-related cybersecurity analytics.

Work Experience

- Aug 2026–Present **IndraGroup** — Cybersecurity and AI Analyst (Inditex project)
- Analyzing cybersecurity data across Inditex to assess the company-wide security posture and provide a comprehensive view of its current state.
 - Developing and maintaining cybersecurity data pipelines and transformations with Python, Snowflake and Apache Kafka.
 - Handling Apache Avro ingestion, Grafana monitoring, automated jobs and event-driven data flows.
 - Using Azure DevOps, Git and CI/CD for development and deployment; contributing to AI-related and cybersecurity analytics use cases.
- Mar 2026–Present **Tesla Technologies** — AI Intern
- Developing threat-detection and risk-analysis ML models; contributing to LangGraph LLM agents.
- 2025–2026 **NovaTech** — AI Agent Engineer
- Built LLM apps and multi-agent automation using LangChain, LangGraph, embeddings and retrieval.
 - Integrated scalable backends using FastAPI, REST APIs and async workflows for business use cases.
- Mar 2026–Present **Freelance AI & Automation Solutions (B2B)**
- Built and sold a Python/Selenium real estate scraping system for B2B lead generation.
 - Built SaaS-style automation tools with LLMs and n8n for real estate agencies, investors and advisory firms.
- 2019–2025 **Judo Instructor**
- Certified instructor and 2nd Dan Black Belt; coached national-level athletes.

Other Experience

- August 2024 **Travel for Different (Volunteering)**, Germany
Led an international volunteering team focused on sustainable tourism.
- Nov 2024 **Erasmus+ “Green Olives Europe”**, Montecilfone, Italy
Sustainability, entrepreneurship and cross-cultural collaboration.
- Jul 2024 **Erasmus+ “Partnerships” Seminar**, Pirovac, Croatia
Networking and international project development.

Education

- 2022–2026 **B.Sc. in Business and Technology**, University of Santiago de Compostela
Honors Distinction in Machine Learning. **Bachelor’s Thesis:** *Linear Algebra for Portfolio Management*.
- Sep 2025–Jan 2026 **Erasmus Exchange Program**, IMC University of Applied Sciences, Krems
Coursework in Startup Management, Computer Engineering, and applied technology.
- Important Modules (selected)**
Big Data Technologies – 10/10, Information Systems for Finance (including R) – 10/10, Machine Learning (Honors Distinction) – 9.7/10, Technology for Intelligent Industrial Processes – 8.8/10, Information Security Management – 8/10, Data Mining and Business Intelligence – 7.5/10.
- Relevant Modules**
Programming, Statistics, Algebra, Calculus, Web and Application Development.
- GPA**
Overall: 7.5/10 **Technical:** 8.5/10

Awards & Recognition

USC Lugo Empreende	1st Prize – Entrepreneurship competition winner.
Terra Creative Jam	1st Place (International) – Award for rural opportunity innovation.
Hack Day USC-LOF	1st Place Winner – Sustainable festivals project.
Rural Youth of Europe	2nd Place (International) – Creative Jam finalist project in Malta.
Santander X Explorer	Local Winner & National Finalist – Entrepreneurship program recognition.
Grupo Hotusa	Regional Winner & National Finalist – Hospitality-tech innovation track.
ATLIC Program	EU Ambassador – Selected by the European Commission for innovation summits.
ATLIC Program	Blue Leader Recognition – Leadership distinction.

Technical Skills

AI & LLMs	Generative AI, Large Language Models (LLMs), Advanced RAG, Multi-Agent Systems (LangChain, LangGraph), Embeddings, Hugging Face.
Vector DBs & Retrieval	Qdrant, ChromaDB, Pinecone, BGE-M3 (Multi-stage retrieval & re-ranking).
Data Parsing & Extraction	Docling, Unstructured, PDF parsing for LLM ingestion.
Machine Learning	Supervised & Unsupervised Learning, Predictive Modeling, Feature Engineering, Data Preprocessing, Model Evaluation, Hyperparameter Tuning, PyTorch, TensorFlow.
Backend & APIs	FastAPI, REST APIs, SQL (PostgreSQL), Webhooks, Async integrations.
Data & Analytics	Python, Pandas, NumPy, Matplotlib, ETL, Data Visualization, and Statistical Analysis.
Data Engineering	Snowflake, Apache Kafka, Apache Avro, ETL/ELT, Data Pipelines, Data Ingestion, Data Transformation, Event-Driven Architectures.
Automation	SaaS-style process automation, n8n, workflow design, and bot integrations.
Web & Product	JavaScript, React, Next.js, HTML, CSS, dashboard and internal tool development. Portfolio includes a yoga website project.
Dev Tools	Git, GitHub, Linux, Docker, Azure DevOps, CI/CD, Grafana, API testing, deployment workflows.

Languages

English	B2 (Oxford) – Currently preparing C1 (DET).
German	Basic – Basic level from courses and classes during Erasmus in Austria.
Portuguese	Intermediate – Good comprehension and communication ability due to its similarity with Galician.
Spanish	Native – Bilingual.
Galician	Native – Bilingual.

Portfolio

alexcarnerooo.github.io/portfolio/

Focused on personal projects, especially Machine Learning applications.
